Jozani and Kizimkazi Dolphins and Monkey (95 \$ per person)

Have you or your children always dreamed of seeing dolphins? This is your day. Start your morning at Kizimkazi, the former capital of Zanzibar and home to the oldest mosque in East Africa still stands. This unique house of worship bears testimony to the early arrival of the Persians in Zanzibar's South, built around the 12th century. After a quick look at the mosque get ready for an adventure as you board a motorized boat and set sail for a thrilling dolphin search. Should luck is on our side, you will even have the chance to swim with these beautiful mammals. After the boat trip, enjoy some free time to dive into the crystal waters with a snorkle and marvel the underwater world teaming with an abundance of marine life and colourful coral.

Once back ashore, savour traditional Swahili snacks, before heading to Jozani National Park, one of the remaining rain forests of East Africa. Don't forget your swimsuit! Located in the Indian Ocean, Changuu Island boasts pristine waters teeming with colourful marine life. Grab your snorkel and explore the magical underwater world. About this tour

Dubai Aquarium and Underwater Zoo is one of the most captivating attractions at The Dubai Mall, offering a memorable journey into ocean life. With a capacity to hold 10 million litres of water. It illuminates the marvels of the ocean floor and showcases one of the most diverse collections of aquatic life. A special 'lunar-cyclic' lighting system changes the ambience of the aquarium depending on the time of day to recreate a normal 24-hour cycle for the aquatic animals. One of the largest indoor suspended aquariums in the world, Dubai Aquarium is home to thousands of aquatic animals. An acrylic viewing

panel, one of the largest in the world-and the clear walkthrough tunnel make for incredible close-encounters with a fascinating collection of aquatic creatures. Located just above the aquarium, Underwater Zoo leads visitors through three ecological zones, Rainforest, Rocky Shore and Living Ocean, to bring them up close with penguins, piranhas, crabs, water rats, sea horses, jellyfish and plenty more.

A fascinating new addition at Underwater Zoo is King Croc, regarded as nature's rare phenomenon and one of the world's largest reptiles. King Croc and his female companion of 20 years reside in a special enclosure that replicates their natural habitat. At over 5 metres long and weighing an imposing 750kg plus, equivalent to the weight of over 15 fully-grown men, King Croc is 40 years old and has the potential to grow even bigger in the next 50 yrs of his expected lifespan.
