Optional Tours

- Sagrada Familia Tour (110 USD Per Person)

Marvel at Gaudi's Modernist interpretation of Gothic architecture with a visit to the stunning temple of the Sagrada Familia, **one of the most extraordinary buildings** not just in Barcelona but anywhere in the world. Contemplate the glorious exterior of a church that has divided opinion since vanguardist architect Antoni Gaudi's monumental project first began. Construction got underway in 1882 but was incomplete on Gaudi's tragic death in 1926 and work continues today to complete his **extraordinary dreamlike vision**. Of the 18 spires originally designed by Gaudí, eight have so far been built. On completion some time in the middle of the next decade, the temple will be the tallest religious building in the world. Take time to consider the fabulous interior where **Gaudí matches seemingly impossible shapes, forms and textures** to create the breathtaking and visionary space before you. Visit the fascinating Sagrada Familia museum to better understand Gaudi's life and work, and the extraordinary creative mind behind his most ambitious project. It contains original sketches, photographs and models of the history and development of this unique work.

Discover the eccentric charms of this must-see building, which leaves no one indifferent. The **Sagrada Familia is a Unesco World Heritage Site** and attracts millions of visitors each year. Experience this spellbinding architectural gem without having to queue and spend more time exploring its awe-inspiring interior.

- Park Güell and Sagrada Familia (170 USD per person)

There is no other park in the world like Park Güell in Barcelona. Contemplate this architectural wonder created by Antoni Gaudí as we walk through it accompanied by an expert guide. Explore its points of interest while listening to all kinds of stories around the history of the park and its famous creator. Admire the multicolored staircase dragon, with its colorful mosaic pottery known as "trencadís"; and look at the large central terrace, surrounded by a series of benches that form a great sea serpent. Going down to the lower part of the terrace you will find the vaulted courtyard, with 86 Doric columns in the shape of enormous tree trunks. As you walk along this path you can see how Gaudí masterfully integrated architecture into nature. He even built birds' nests in these corridors and on the walls of the terrace.

Continue the tour to another of the great wonders of Gaudí, the Sagrada Familia, and marvel at this exceptional modernist building that has already become a symbol of the city. Contemplate its glorious facade, which has provoked all kinds of opinions since the architect began his project. Once inside, you can see impossible shapes and textures that offer a space of illusion and fantasy in which you will be absorbed.
